

Invitation

Black Box meeting in Sárospatak, Hungary 24.11.2007.

Dear Ancient Charm partners,

as we agreed in Milano, WP1 is organising a meeting on black box experiences and results in Hungary. We invite all of you who had actually worked on the analysis of the "black boxes". The venue of the meeting is Sárospatak, a historical town in NE Hungary, centre of the princely family Rákóczi. The Rákóczi Castle is one of the filial institutions of the Hungarian National Museum.

The program includes a full day at Sárospatak with lectures/discussion from 9:00. to 17:00. on the 24th of November, 2007.

We are organising a "core programme" with transport etc. from Budapest to Budapest as most of you will probably come to Budapest Airports or other means of transport coming through Budapest.

The meeting point is the HNM at 17:00. on the 23rd of November (we organise bus transport to Sárospatak) and we come back the same place, i.e., HNM on the 25th of November (about 12:00).

Accommodation (at Sárospatak) and meals will be organised from 17:00, 23rd of November till 12:00 25th of November.

You can arrange your own way to Sárospatak if you like, especially if you intend to come by car but please keep us informed.

You may also want to stay more in Budapest, before or after the meeting, depending on your flight schedule. Let us know about it in time.

The registration we will be 150 Euro. Registration fee will include:

- **transport** (from/to airport if necessary) **from HNM to Sárospatak and back**

- **meals:**

	Breakfast	Lunch	Dinner
23 rd of November			
24 th of November		X	X
25 th of November	X	X	

Please check on Registration Form.

We plan to present the boxes and discuss all of them in order of complexity by each method used. We also plan to find out an optimal sequence of analyses and put together a framework for joint publication of the black boksx experiences.
